D. SPIDER CHART FOR THE COFFEE:

Observations:

1. Preparation of the coffee is good.
2. Coffee has nice Complexity.
3. Coffee has got nice sweetness to it.

Suggestions:

1. Coffees should be stored in the Ecotact or Grainpro bags to preserve the quality for longer time.
2. Coffee nicely suits all the brewing methods.

Roasting Suggestions:

1. Coffee for its versatility can be roasted with different roast colours.
2. Medium roast suits for Manual Brewers.
3. Medium to slightly dark roast suits the espresso.
4. Medium to Dark roast suits the Milk Beverages.
5. As the coffee is delicate, the charge temperature should be not more than 185 degrees.
